Environment and Enclosure

ATTENTION: This equipment is intended for use in a Pollution Degree 2 industrial environment, in overvoltage Category II applications (as defined in IEC 60664-1), at altitudes up to 2000 m (6562 ft) without derating. This equipment is considered Group 1, Class A industrial equipment according to IEC/CISPR 11. Without appropriate precautions, there may be difficulties with electromagnetic compatibility in residential and other environments due to conducted and radiated disturbances. This equipment is supplied as open-type equipment. It must be mounted within an enclosure that is suitably designed for those specific environmental conditions that will be present and appropriately designed to prevent personal injury resulting from accessibility to live parts. The enclosure must have suitable flame-retardant properties to prevent or minimize the spread of flame, complying with a flame spread rating of 5V A, V2, V1, V0 (or equivalent) if non-metallic. The interior of the enclosure must be accessible only by the use of a tool. Subsequent sections of this publication may contain additional information regarding specific enclosure type ratings that are required to comply with certain product safety certifications.

In addition to this publication, see:

- Industrial Automation Wiring and Grounding Guidelines, Rockwell Automation publication [1770-4.1](#), for additional installation requirements.
- NEMA Standard 250 and IEC 60529, as applicable, for explanations of the degrees of protection provided by different types of enclosure.

Preventing Electrostatic Discharge

ATTENTION: This equipment is sensitive to electrostatic discharge, which can cause internal damage and affect normal operation. Follow these guidelines when you handle this equipment:

- Touch a grounded object to discharge potential static.
- Wear an approved grounding wriststrap.
- Do not touch connectors or pins on component boards.
- Do not touch circuit components inside the equipment.
- Use a static-safe workstation, if available.
- Store the equipment in appropriate static-safe packaging when not in use.

North American Hazardous Location Approval

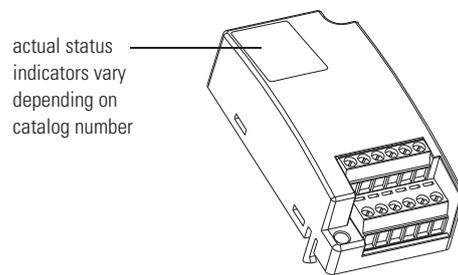

The following modules are North American Hazardous Location approved:
2080-IQ4, 2080-IQ4OB4, 2080-IQ4OV4, 2080-OB4, 2080-OV4

The following information applies when operating this equipment in hazardous locations:	Informations sur l'utilisation de cet équipement en environnements dangereux:
<p>Products marked "CL I, DIV 2, GP A, B, C, D" are suitable for use in Class I Division 2 Groups A, B, C, D, Hazardous Locations and nonhazardous locations only. Each product is supplied with markings on the rating nameplate indicating the hazardous location temperature code. When combining products within a system, the most adverse temperature code (lowest "T" number) may be used to help determine the overall temperature code of the system. Combinations of equipment in your system are subject to investigation by the local Authority Having Jurisdiction at the time of installation.</p>	<p>Les produits marqués "CL I, DIV 2, GP A, B, C, D" ne conviennent qu'à une utilisation en environnements de Classe I Division 2 Groupes A, B, C, D dangereux et non dangereux. Chaque produit est livré avec des marquages sur sa plaque d'identification qui indiquent le code de température pour les environnements dangereux. Lorsque plusieurs produits sont combinés dans un système, le code de température le plus défavorable (code de température le plus faible) peut être utilisé pour déterminer le code de température global du système. Les combinaisons d'équipements dans le système sont sujettes à inspection par les autorités locales qualifiées au moment de l'installation.</p>
<div style="display: flex; align-items: center;">  <div> <p>WARNING: EXPLOSION HAZARD</p> <ul style="list-style-type: none"> • Do not disconnect equipment unless power has been removed or the area is known to be nonhazardous. • Do not disconnect connections to this equipment unless power has been removed or the area is known to be nonhazardous. Secure any external connections that mate to this equipment by using screws, sliding latches, threaded connectors, or other means provided with this product. • Substitution of any component may impair suitability for Class I, Division 2. • If this product contains batteries, they must only be changed in an area known to be nonhazardous. </div> </div>	<div style="display: flex; align-items: center;">  <div> <p>AVERTISSEMENT: RISQUE D'EXPLOSION</p> <ul style="list-style-type: none"> • Couper le courant ou s'assurer que l'environnement est classé non dangereux avant de débrancher l'équipement. • Couper le courant ou s'assurer que l'environnement est classé non dangereux avant de débrancher les connecteurs. Fixer tous les connecteurs externes reliés à cet équipement à l'aide de vis, loquets coulissants, connecteurs filetés ou autres moyens fournis avec ce produit. • La substitution de tout composant peut rendre cet équipement inadapté à une utilisation en environnement de Classe I, Division 2. • S'assurer que l'environnement est classé non dangereux avant de changer les piles. </div> </div>

4 Micro800 Digital Input, Output, and Combination Plug-in Modules

Parts List

Your package contains one Micro800™ digital input, output, or combination plug-in module, two module fastening screws, and these pinout guide wiring instructions.

45867

ATTENTION: This plug-in module is intended for use with Micro800 Family of Programmable Controllers.

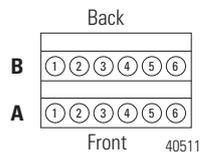

You can choose to wire the plug-in before inserting it onto the controller, or wire it once the module is secured in place.

Wire the Module

Follow the pinout diagram to wire your plug-in module.

12-Pin Female Terminal Block

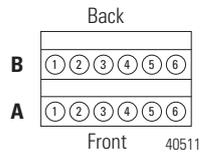

2080-IQ4

(View into terminal block)

Pin A1	I-02	Pin B1	I-00
Pin A2	I-03	Pin B2	I-01
Pin A3	COM	Pin B3	COM
Pin A4	COM	Pin B4	COM
Pin A5	Not used	Pin B5	Not used
Pin A6	Not used	Pin B6	Not used

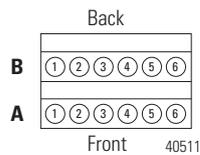

2080-IQ4OB4, 2080-IQ4OV4

(View into terminal block)

Pin A1	I-02	Pin B1	I-00
Pin A2	I-03	Pin B2	I-01
Pin A3	COM	Pin B3	COM
Pin A4	-24V DC	Pin B4	+24V DC
Pin A5	O-02	Pin B5	O-00
Pin A6	O-03	Pin B6	O-01

2080-OB4, 2080-OV4

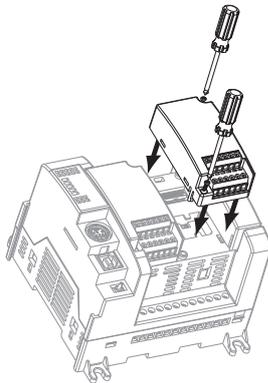

(View into terminal block)

Pin A1	Not used	Pin B1	Not used
Pin A2	Not used	Pin B2	Not used
Pin A3	-24V DC	Pin B3	+24V DC
Pin A4	-24V DC	Pin B4	+24V DC
Pin A5	O-02	Pin B5	O-00
Pin A6	O-03	Pin B6	O-01

Insert Module into Controller

Follow the instructions to insert and secure the plug-in module to the controller.

45012

WARNING: If you insert or remove the module while the controller power is on, an electrical arc can occur. This could cause an explosion in hazardous location installations. Be sure that power is removed or the area is nonhazardous before proceeding.

WARNING: When used in a Class I, Division 2, hazardous location, this equipment must be mounted in a suitable enclosure with proper wiring method that complies with the governing electrical codes.

WARNING: If you connect or disconnect wiring while the field-side power is on, an electrical arc can occur. This could cause an explosion in hazardous location installations. Be sure that power is removed or the area is nonhazardous before proceeding.

1. Position the plug-in module with the terminal block facing the front of the controller as shown.
2. Snap the module into the module bay.
3. Using a screwdriver, tighten the 10...12 mm (0.39...0.47 in.) M3 self tapping screw to torque specifications.

Specifications

Input Specifications, 2080-IQ4, 2080-IQ4OV4, 2080-IQ4OB4

Attribute	Value
DC on-state voltage, min	9.0V DC
DC on-state voltage, max	30V DC
DC on-state current, min	2.0 mA @ 9V DC
DC on-state current, nom	3.0 mA @ 24V DC
DC on-state current, max	5.0 mA
DC off-state voltage, max	5V DC
DC off-state current, max	1.5 mA
IEC input compatibility	Type 3
Input impedance	0...3V, >4 K Ω 3...12V, 3.5 K Ω min 12...30V, >4 K Ω <10 K Ω
Input filter time ON to OFF	8...10 ms AC/DC
AC on-state voltage, min	10.25V AC (rms)
AC on-state voltage, max	30V AC (rms)
AC on-state current, min	2.0 mA @ 9V AC (rms)
AC on-state current, max	5.0 mA
AC off-state voltage	3.5V AC (rms)

8 Micro800 Digital Input, Output, and Combination Plug-in Modules

Output Specifications, 2080-OB4, 2080-OV4, 2080-IQ4OB4, 2080-IQ4OV4

Attribute	Value
Power supply voltage, min	10.8V DC
Power supply voltage, max	30V DC
On-state voltage, min	10V DC
On-state voltage, nom	24V DC
On-state voltage, max	30V DC
On-state current	5.0 mA @ 10V DC, min 0.5 A max, steady state 2 A surge, 2 s min

General Specifications

Attribute	Value
Mounting torque	0.2 Nm (1.48 lb-in.)
Status indicators	For input or output modules 4 yellow For combination modules 8 yellow
Terminal base screw torque	0.22...0.25 Nm (1.95...2.21 lb-in.) using a 2.5 mm (0.10 in.) flat-blade screwdriver
Enclosure type rating	None (open-style)
Isolation voltage	For input modules 50V (continuous), Basic Insulation Type, Inputs to Backplane Type tested for 60 s @ 720 V DC, Inputs to Backplane For combination or output modules 50V (continuous), Basic Insulation Type, Inputs to Outputs, I/Os to Backplane Type tested for 60 s at 720 V DC, I/Os to Backplane
Wire size	0.2... 2.5 mm ² (24...12 AWG) solid or stranded copper wire rated at 90 °C (194 °F), or greater, insulation max
Wire category	2 – on signal ports 2 – on power ports
North American temp code	T4

Environmental Specifications

Attribute	Value
Temperature, operating	IEC60068-2-1 (Test Ad, Operating Cold), IEC60068-2-2, (Test Bd, Operating Dry Heat), IEC 60068-2-14 (Test Nb, Operating Thermal Shock): -20...65 °C (-4...149 °F)
Temperature, surrounding air, max.	65 °C (149 °F)
Temperature, non-operating	IEC60068-2-1 (Test Ad, Operating Cold), IEC60068-2-2, (Test Bd, Operating Dry Heat), IEC 60068-2-14 (Test Nb, Operating Thermal Shock): -40...85 °C (-40...185 °F)
Relative humidity	IEC 60068-2-30 (Test Db, Unpackaged Damp Heat): 5...95% noncondensing
Vibration	IEC 60068-2-6 (Test Fc, Operating): 2 g @ 10...500 Hz
Shock, operating	IEC 60068-2-27 (Test Ea, Unpackaged Shock): 25 g
Shock, non-operating	IEC 60068-2-27 (Test Ea, Unpackaged Shock): 25 g
Emissions	CISPR 11: Group 1, Class A
ESD Immunity	IEC 61000-4-2: 4 kV contact discharges 8 kV air discharges
Radiated RF immunity	IEC 61000-4-3: 10 V/M with 1 kHz sine-wave 80%AM from 80...2000 MHz 10 V/M with 200 Hz 50% Pulse 100%AM @ 900 MHz 10 V/M with 200 Hz 50% Pulse 100%AM @ 1890 MHz 10 V/M with 1 kHz sine-wave 80%AM from 2000...2700 MHz
EFT/B immunity	±2 kV at 5 kHz on signal ports
Surge transient immunity	±1 kV line-line(DM) and ±2 kV line-earth(CM) on signal ports
Conducted RF immunity	10V rms with 1 kHz sine-wave 80%AM from 150 kHz...80 MHz

10 Micro800 Digital Input, Output, and Combination Plug-in Modules

Certifications

Certification (when product is marked) ⁽¹⁾	Value
c-UL-us	UL Listed Industrial Control Equipment, certified for US and Canada. See UL File E322657 UL Listed for Class I, Division 2 Group A,B,C,D Hazardous Locations, certified for U.S. and Canada. See UL File E334470.
CE	European Union 2004/108/EC EMC Directive, compliant with: EN 61326-1; Meas./Control/Lab., Industrial Requirements EN 61000-6-2; Industrial Immunity EN 61000-6-4; Industrial Emissions EN 61131-2; Programmable Controllers (Clause 8, Zone A & B)
C-Tick	Australian Radiocommunications Act, compliant with: AS/NZS CISPR 11; Industrial Emissions
KC	Korean Registration of Broadcasting and Communications Equipment, compliant with: Article 58-2 of Radio Waves Act, Clause 3

⁽¹⁾ See the Product Certification link at <http://www.ab.com> for Declarations of Conformity, Certificates, and other certification details.

Notes:

Rockwell Automation Support

Rockwell Automation provides technical information on the Web to assist you in using its products. At <http://www.rockwellautomation.com/support/>, you can find technical manuals, a knowledge base of FAQs, technical and application notes, sample code and links to software service packs, and a MySupport feature that you can customize to make the best use of these tools.

For an additional level of technical phone support for installation, configuration and troubleshooting, we offer TechConnect support programs. For more information, contact your local distributor or Rockwell Automation representative, or visit <http://www.rockwellautomation.com/support/>.

Installation Assistance

If you experience a problem within the first 24 hours of installation, please review the information that's contained in this manual. You can also contact a special Customer Support number for initial help in getting your product up and running.

United States or Canada	1.440.646.3434
Outside United States or Canada	Use the Worldwide Locator at http://www.rockwellautomation.com/support/americas/phone_en.html , or contact your local Rockwell Automation representative.

New Product Satisfaction Return

Rockwell Automation tests all of its products to ensure that they are fully operational when shipped from the manufacturing facility. However, if your product is not functioning and needs to be returned, follow these procedures.

United States	Contact your distributor. You must provide a Customer Support case number (call the phone number above to obtain one) to your distributor to complete the return process.
Outside United States	Please contact your local Rockwell Automation representative for the return procedure.

Documentation Feedback

Your comments will help us serve your documentation needs better. If you have any suggestions on how to improve this document, complete this form, publication [BA-DU002](#), available at <http://www.rockwellautomation.com/literature/>.
